

The NoteSquad

Project Milestone 2

Features

1. Password/username login system

Provides the user with an encrypted password for privacy

This feature provides an easy to use system that allows the user to keep their information safe and secure.

2. Registration Page

Provides the user with a profile creation system

This feature allows users to easily create their own profile with the help of a tutorial.

3. Personal Information/Profile

Provides the user with a profile for security, storage, and easy identification

User profiles are stored in the same database as the documents. They are searchable, secure, and easy to use.

4. Accessible Database with Personal Repository

Provides the user with a database which they can use to store and retrieve documents

This feature uses PostgreSQL to maintain a database that allows users to both share documents and store them locally on their host PC.

5. Search bar with Filter

Provides a filterable search bar

This feature allows the user to search for other users depending on their preference, and also for documents. The user can filter their search for convenience.

6. Website UI

Provides the user with an interface for easy visual navigation

Our application provides a homepage via D3/HTML/Bootstrap that allows users to easily identify their profile and search for note takers, clients, and resources with easily identifiable icons.

Wireframes and Design:

Create New profile page:

The wireframe shows a web browser window titled "Site Title". On the left is a red logo with the letters "NS". The main content area is centered and contains the following elements:

- A header bar with the text "NoteSquad".
- A "Welcome!" message followed by "Info about this site" and a blue "Learn" button.
- A registration form with four blue labels and corresponding input fields:
 - "Username:" with the placeholder text "something".
 - "email:" with the placeholder text "something@something".
 - "Password" with placeholder dots ".....".
 - "Confirm Password" with placeholder dots ".....".
- A dark grey "Confirm" button at the bottom.
